

**RIGHT OF WAY EASEMENT**

Easement # \_\_\_\_\_

KNOW ALL MEN BY THESE PRESENCE, that (grantor) \_\_\_\_\_  
for a good and valuable consideration, the receipt of which is hereby acknowledged, do(es) hereby grant unto LACLEDE ELECTRIC COOPERATIVE,  
INC., (grantee) a cooperative corporation whose post office address is Lebanon, Missouri, and to its successors or assigns, the perpetual right and easement  
to enter upon a strip of land Thirty (30) feet in width extended across a tract of land located in Section \_\_\_\_\_ Township \_\_\_\_\_  
Range \_\_\_\_\_, situated in the County of \_\_\_\_\_, State of Missouri, and more particularly described as follows:

To place, replace, construct, reconstruct, erect, operate, repair, maintain, modify, patrol, and relocate thereon, and in or upon all streets, roads or highways  
abutting said lands, either above ground, underground or a combination of both, an electric transmission or distribution line or system, consisting of poles,  
wires, transformers, meters, fiber optic cables, guy wires, anchors, or other cables or lines, and all other appurtenances or equipment necessary for the  
transmission and distribution of electrical energy and communication data or information of any type whatsoever, to and across the above described lands of  
the undersigned; and the right to have ingress and egress to, from and over the above described lands, for doing anything necessary or useful for the enjoyment  
of the easement herein granted; and to cut, trim, remove, and control by chemical means, machinery or otherwise trees and shrubbery to the extent necessary  
to keep them clear of aforementioned electric transmission or distribution lines or system, and to cut down from time to time all dead, weak, leaning or  
dangerous trees that are tall enough to strike the wires or other components of the system, whether growing on or off said easement; and to remove all  
structures that might endanger or be endangered by the line or system; and to license, permit, or otherwise agree to the joint use or occupancy of the line or  
system by any successor or subsidiary of Grantee, or any other rural electric cooperative or their successors and subsidiaries.

The location of the easement granted herein on the above described lands of the undersigned shall be determined and fixed upon completion of the  
communication, electric transmission or distribution lines when and as initially constructed. The easement granted herein shall be 30 feet in width, being 15  
feet on each side of its centerline. Furthermore, for any guy wires, anchors, and other appurtenances that extend outside the 30 foot wide easement, said  
easement shall continue and extend out 20 foot wide, 10 foot on each side of the centerline of any guy wires, anchors, and other appurtenances, and  
thereafter continue at a radius of 10 feet around all anchors or other appurtenances.

Upon completion of construction of the initial structures within said easement, the burden, scope of use, and footprint shall be fixed, except as otherwise  
provided for herein. Nothing set forth herein shall be deemed to limit Grantee's right and ability to upgrade, expand, or extend any electric line, cable, fiber  
optic, or other lines or communication systems, data, or information systems of any type in the future on, across, and within the easement so as to enable  
Grantee herein to furnish service to others, and within the easement the right to increase or decrease the voltage, size, or capacity of the line, number of lines  
or circuits, and the number of poles, guys, anchors, or structures, all as Grantee may deem necessary or advisable.

The undersigned agree that all poles, wires and other facilities installed in, upon or under the above-described lands at the Cooperative's expense shall  
remain the property of the Cooperative, removable at the option of the Cooperative. The undersigned further agrees to keep the easement clear of all future  
buildings, structures, grain bins, water impoundments, or other obstructions that may interfere with the operation or maintenance of the transmission or  
distribution lines or system, except where permitted by Grantee. The undersigned furthermore agrees to advise and consult with Grantee in advance of any  
change in grade and/or elevation of the land within the easement as granted herein, so as to allow Grantee to maintain mandatory clearance requirements.

The undersigned covenant that they are the fee owners of the above described lands.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.
